

2017 List of Reportable Diseases in Tennessee

For Healthcare Providers

The diseases, events, and conditions reportable to Tennessee Department of Health (TDH) by healthcare providers are listed below for 2017. Laboratories in healthcare facilities should refer to Page 2 of this document. The reporting form (PH-1600) and associated documentation may be faxed directly to the local or regional health office (see <http://tn.gov/health/topic/localdepartments>) or the Division of Communicable and Environmental Diseases and Emergency Preparedness (CEDEP) at (615) 741-3857. The PH-1600 also is available for completion online at <https://is.gd/TNReportableDiseases>. More information about reporting, is available at the Reportable Diseases website at <https://apps.health.tn.gov/ReportableDiseases>. For questions, contact CEDEP at (615) 741-7247 or (800) 404-3006.

2017 List of Reportable Diseases in Tennessee

For Laboratories

The diseases, events, and conditions reportable to Tennessee Department of Health (TDH) by laboratories, including laboratories in healthcare facilities, are listed below for 2017. Refer to Page 1 of this document for a list of diseases, events, and conditions reportable by healthcare providers. Laboratories should refer to the Detailed Laboratory Guidance document for additional guidance on reportable tests and results, and specimen/isolate submission to the state public health laboratory.

Laboratory reports, and the reporting form (PH-1600) (if needed), may be faxed directly to the local or regional health office (see <http://tn.gov/health/topic/localdepartments>) or the Division of Communicable and Environmental Diseases and Emergency Preparedness (CEDEP) at (615) 741-3857. The PH-1600 also is available for completion online at <https://is.gd/TNReportableDiseases>. Refer to the Reportable Diseases website at <https://apps.health.tn.gov/ReportableDiseases> for additional reporting information. For questions, contact CEDEP at (615) 741-7247 or (800) 404-3006.

Disease Outbreaks (e.g., foodborne, healthcare-associated, waterborne) !

<i>Acinetobacter</i> species: Carbapenem-Resistant	<i>Escherichia coli</i> : Carbapenem-Resistant <i>Enterobacteriaceae</i>	<i>Plasmodium</i> species
<i>Anaplasma phagocytophilum</i> , species <i>Babesia</i> species	<i>Escherichia coli</i> : Extended Spectrum Beta Lactamase-Producing	Poliovirus
<i>Bacillus anthracis</i> !	<i>Escherichia coli</i> : Shiga toxin-producing	<i>Pseudomonas aeruginosa</i> : Carbapenem-Resistant
<i>Bordetella pertussis</i>	Equine Encephalitis viruses: Eastern , Venezuelan , Western	Rabies virus: Animal, Human !
<i>Borrelia burgdorferi</i>	<i>Francisella tularensis</i> species	Ricin toxin !
<i>Brucella</i> species	<i>Haemophilus influenzae</i>	<i>Rickettsia</i> species (other than <i>R. typhus</i>)
<i>Burkholderia mallei</i>	Hepatitis, Viral- Type A	Rubella virus
California/LaCrosse Serogroup viruses	Hepatitis, Viral- Type B: Acute	St. Louis Encephalitis virus
<i>Campylobacter</i> species	Hepatitis, Viral- Type B: Perinatal (age ≤24 months), Pregnant Female (each pregnancy)	<i>Salmonella</i> : Typhi , other species
<i>Candida auris</i>	Hepatitis, Viral- Type C: Acute, Chronic	<i>Shigella</i> species
Chikungunya virus	Human Immunodeficiency Virus	<i>Staphylococcus aureus</i> :
<i>Chlamydia psittaci</i>	Influenza A virus: Novel !	Enterotoxin B-producing (pulmonary) !
<i>Chlamydia trachomatis</i>	<i>Klebsiella</i> species: Carbapenem-Resistant <i>Enterobacteriaceae</i>	Methicillin-Resistant Invasive Disease
<i>Clostridium botulinum</i> or botulinum toxin:	Lead Levels	Toxin-producing (TSST-1)
Foodborne ! Wound !	<i>Legionella</i> species	Vancomycin Non-Sensitive (All Forms)
Infant	<i>Listeria</i> species	<i>Streptococcus agalactiae</i> Invasive Disease
<i>Clostridium difficile</i>	Measles virus !	<i>Streptococcus pneumoniae</i> Invasive Disease
<i>Clostridium tetani</i>	Meningitis: Other Bacterial	<i>Streptococcus pyogenes</i> :
Colistin-resistant (plasmid-mediated) gram negative bacteria	Middle East Respiratory Syndrome coronavirus (MERS-CoV) !	Invasive Disease
<i>Corynebacterium diphtheria, ulcerans</i>	Mumps virus	Toxin-producing
<i>Coxiella burnetii</i>	<i>Mycobacterium leprae</i>	<i>Treponema pallidum</i> :
<i>Cryptosporidium</i> species	<i>Mycobacterium nontuberculous</i> species (extra-pulmonary only)	Congenital ,
<i>Cyclospora</i> species	<i>Mycobacterium tuberculosis</i> complex (<i>M. tuberculosis</i> , <i>M. bovis</i> , <i>M. africanum</i> , <i>M. canettii</i> , <i>M. microti</i>)	Other
Dengue virus	<i>Neisseria gonorrhoeae</i>	<i>Trypanosoma cruzi</i>
<i>Ehrlichia</i> species	<i>Neisseria meningitidis</i> !	Variola virus (Orthopox virus) !
<i>Enterobacter</i> species: Carbapenem-Resistant <i>Enterobacteriaceae</i>		<i>Vibrio cholerae</i> , species
<i>Enterococcus</i> species: Vancomycin-Resistant Invasive Disease		Viral Hemorrhagic Fever viruses (including Ebola, Lassa, Marburg) !

Specimen or Isolate Submission: Required Requested

For more details about the laboratory tests and results, specimen or isolate submission requirements, and catchment areas for individual pathogens, please refer to the 2017 Reportable Diseases in Tennessee: Detailed Laboratory Guidance.

Regular Reporting:

PH-1600 only in 1 week (all diseases for Regular Reporting)

Phone immediately + PH-1600 in 1 week

Phone next business day + PH-1600 in 1 week

Complete the PH-1600 online or fax to HAI Emerging Infections Program at (615) 741-3857 within 30 days. Refer to the Detailed Laboratory Guidance for catchment. Send questions to HAI.Health@tn.gov.

Special Reporting:

Report online at <https://leadinput.tennessee.edu/leadin/>. For more information, refer to <http://www.tn.gov/health/article/MCH-lead-providers>.
