

Opioids are a type of drug that have **ADDICTIVE PROPERTIES.**

Prescription Opioids

Hydrocodone
Oxycodone
Morphine
Codeine
Many others

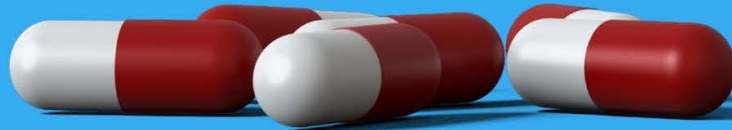

Illegal Opioids

Heroin
Illicit Fentanyl
Carfentanil
Many analogs

When taken as prescribed,
opioids are generally safe.

When opioids are taken in
negligence, problems can arise.

Anyone who takes opioids can become
ADDICTED.

Opioid misuse can cause **OVERDOSE AND DEATH.**
