PHI is individually identifiable information about your past, present, or future health or condition, the provision of health care to you, or payment for health care. We are required to give you a notice of our privacy practices for the information that we collect and keep about you.

OUR PLEDGE REGARDING YOUR PROTECTED HEALTH INFORMATION

We understand that health information about you is personal, and we are committed to protecting this information. This Privacy Notice applies to all of your health information, including (1) records relating to your care at a health department clinic and/ or (2) health care records received by the Health Department from another source and (3) genetic information.

We are required by law to: (1) keep your PHI confidential; (2) give you this Privacy Notice; and (3) follow the terms of the current Privacy Notice.

HOW WE MAY USE AND DISCLOSE YOUR PROTECTED HEALTH INFORMATION FOR TREATMENT, PAYMENT, AND OPERATIONS

The following categories describe different ways we may use and disclose your PHI:

- **For Treatment.** We may use or disclose your PHI to doctors, nurses, nutritionists, technicians, or other health department personnel who are involved in taking care of you. We may disclose your PHI to people outside the health department who may be involved in your medical care such as prescriptions, lab work and x-rays.
- **For Payment.** We may use or disclose your PHI to get payment or to pay for health services that you receive. For example, we may need to tell your health insurance about a treatment you need in order to obtain prior approval or to determine whether your insurance will pay for the treatment.
- **For Health Care Operations.** We may use or disclose your PHI for the Health Department's operations. This is necessary to manage the Department's programs and activities. For example, we may use PHI to review our services, programs, and/or the quality of care that we provide to you.

- **Health Oversight Activities.** We may disclose PHI to a health oversight agency for activities authorized by law. These oversight activities may include audits, investigations, inspections, and licensure. These activities are necessary for the state and federal government to monitor the health care delivery system in Tennessee.
- **Public Health Risks.** We may disclose PHI about you for public health activities. These activities may include the reporting of births and deaths and the tracking, prevention, or control of certain diseases, injuries and disabilities.
- **Research.** In certain circumstances, and under supervision of an institutional review board, we may disclose PHI in order to assist medical research.
- **To Avert a Serious Threat to Health or Safety.** We may use or disclose your PHI if

necessary to prevent a serious threat to you or the health and safety of the public or another person. Any disclosure, however, would only be to someone able to help prevent the threat.
